Summary

I am a university student passionate about Artificial Intelligence and Machine Learning. I have built a solid foundation across multiple technologies including Python, C, C++, Java, MySQL, Oracle Database, and the basics of Machine Learning and Data Science. I enjoy turning ideas into real projects and I am constantly pushing myself to learn more and grow as a developer. Currently focused on deepening my AI and ML knowledge while working on hands-on projects to strengthen my practical skills. Open to internship opportunities, collaborations, and connecting with like-minded people in the tech space.
